

Lovibond® Colour Measurement Tintometer® Group

AF334

Measure Colour to Gardner Scale (ASTM D1544, ISO 4630) 1 - 18 Units

- Self-Contained Kit to Measure Gardner Colour
- Fast, Economical & Portable Visual Matching
- Two-Field Vision for Accurate Results
- Ability to Guarantee Constant Lighting Conditions

Part Number: 433340

Enables You to Easily Measure Colour According to the Gardner Scale

All you need to do is rotate the disc to get the closest result to the scale.

Fast, Economical & Portable Visual Matching

The Comparator 2000+ is a flexible, modular system for Visual Colour Grading. Using a suitable comparator instrument and glass disc, you can quickly visually match the sample directly against the calibrated, colour stable glass standards.

Two-Field Vision for Accurate Results

Lovibond® comparator instruments include an integrated prism which causes the sample and comparison fields to overlap, allowing enhanced colour discrimination and matching. The prism is ultrasonically sealed to prevent contamination of the optics. Each individually graded glass standard represents a discrete step on the measurement range (as opposed to a continuous graduation), aiding colour discrimination and allowing great accuracy of results.

Ability to Guarantee Constant Lighting Conditions

An optional item for the Comparator 2000+ is the Daylight 2000 Lighting Unit. This is a standardised light source which guarantees you a constant lighting condition for accurate colour grading. This is particularly useful when the sample is very pale in colour. By using a Lovibond® lighting unit, you can be confident of uniform lighting conditions for colour matching, 24 hours a day and irrespective of ambient lighting.

Extended Shelf Life

The unique feature of Lovibond® test discs is that they incorporate coloured glass standards that are colour stable and not affected by UV light or extreme environmental conditions.

Please note, we cannot guarantee compatibility of discontinued Lovibond® Comparator 1000 disks with the Lovibond® 2000+ Comparator.

Industry

Chemical Industry | Food and Beverage Industry | Industries Others | Oil and Gas

Application

Edible Oils and Fats | Petroleum Oils and Waxes

AF334

The Two-Field Comparator 2000+ is the easiest way for you to measure against the Gardner Scale and show compliance to standards. It is a useful Quality Control instrument for in-coming and out-going goods. Reliable and repeatable colour test results are key to ensuring final product quality and minimising production costs.

Technical Data

Applicable Standard ASTM D1544
ASTM D6166

Colour Type Transparent
Translucent

Portability Portable

Delivery Scope

- 1 x Lovibond 2000+ Comparator
- 1 x Comparator Daylight 2000+
- 1 x 4/30AS Gardner Scale Disc
- 1 x 4/30BS Gardner Scale Disc
- 2 x W680.0G.10mm Cell
