

Lovibond® Water Testing Tintometer® Group

Nessleriser 2250 with stand, Daylight unit and nessler cylinders DB 420

More than 400 different test discs available

- More than 400 different test discs available
- Compensation for coloured and turbid samples
- Guaranteed constancy of the coloured glass standards
- Integrated prism

Part Number: 172040

Usable in different applications

The Nessleriser 2250 is versatile: it is used in swimming pools as well as in research centres, universities or general drinking water treatment.

Daylight lamp

So that you can always measure safely and stably under unfavourable visibility conditions, this package comes with a mains daylight unit, so the lighting conditions always remain the same no matter where you are measuring.

Integrated prism

The integrated prism visually brings the glass standards of the colour disc and the coloured sample into view.
