

# Lovibond® Water Testing Tintometer® Group

## Phosphate Kit

Determination of Phosphate in low concentration levels

- Highly sensitive
- Easy to use
- Futuristic design
- Highest accuracy

Part Number: 157800

### Highly sensitive

With a 9 cm pathlength, this visual test kit is sensitive enough to detect low levels of phosphate in water.

### Low cost

This easy-to-use, low cost, testing solution delivers accurate results for measuring the range of 0 - 1000 ppb (= 0 - 1.0 mg/L PO<sub>4</sub>).

### Industry

Pool Domestic | Pool Services

### Application

Pool Water Control

### Phosphate Kit

Does your pool have an algae problem? Algae growth is often a result of phosphate in the pool water. In order to combat the issue, a phosphate binding material can be added to the water, combined with a routine practice of monitoring phosphate levels in the pool. It is important that the solution you choose can accurately detect the low concentration of 200 µg/l PO<sub>4</sub>, the level at which an algae bloom can occur. The Lovibond® Phosphate test kit is up to the task!

### Measuring Range

Test Name	Measuring Range
Phosphate	0 - 1000 ppb

# Delivery Scope

- Colour card
- Stirring rod, length 13 cm
- Test vial & stopper
- 30 Phosphate No.1 tablets
- 30 Phosphate No.2 tablets
- Instruction Manual
