Lovibond[®] Water Testing

Tintometer® Group

Safety Data Sheet

acc. to OSHA HCS (HazCom 2012)

Printing date 08/07/2024

1 Identification

· Product identifier

- · Trade name: Polyacrylate Indicator A4
- · Catalogue number: 56Z018198, 56L0181, 56L018130, 56L018165, 56U018130, 56U018165, SDT084
- · Application of the substance / the mixture: Reagent for water analysis
- Manufacturer/Supplier: Tintometer Inc. 6456 Parkland Drive Sarasota, FL 34243 USA phone: (941) 756-6410 fax: (941) 727-9654 www.lovibond.us Made in Germany
- · Emergency telephone number: + 1 866 928 0789 (English, French, Spanish)

2 Hazard(s) identification

· Classification of the substance or mixture

GHS05 Corrosion

Corrosive to Metals 1 H290 May be corrosive to metals.

Skin Irritation 2 Eye Irritation 2A H315 Causes skin irritation. H319 Causes serious eye irritation.

Flammable Liquids 4 H227 Combustible liquid.

· Label elements

- · GHS label elements The product is classified and labeled according to the Hazard Communication Standard (HCS).
- · Hazard pictograms

· Signal word Warning

- · Hazard statements
- H227 Combustible liquid.
- H290 May be corrosive to metals.
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.

Precautionary statements

- P280 Wear protective gloves / eye protection.
- P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P302+P352 If on skin: Wash with plenty of water.
- P332+P313 If skin irritation occurs: Get medical advice/attention.
- P337+P313 If eye irritation persists: Get medical advice/attention.
- P390 Absorb spillage to prevent material damage.

Printing date 08/07/2024

Reviewed on 08/07/2024

Trade name: Polyacrylate Indicator A4

• Other hazards At long or repeated contact with skin it may cause dermatitis due to the degreasing effect of the solvent.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description: sulfuric acid solution

Composition and Information on Ingredients:

Cancer Status IARC: Strong inorganic acid mists containing sulphuric acid can cause cancer.

Percent ranges are used due to the confidential product information.

5	1		
CAS: 7664-93-9 EINECS: 231-639-5 Index number: 016-020-00-8 RTECS: WS5600000	sulphuric acid	♦ Corrosive to Metals 1, H290; Skin Corrosion 1A, H314	5–10%
CAS: 64-17-5 EINECS: 200-578-6 Index number: 603-002-00-5 RTECS: KQ 6300000	ethanol	♦ Flammable Liquids 2, H225; ♦ Eye Irritation 2A, H319	≤2.5%
Additional information, For	the wording of the listed har	and phrases refer to eastion 16	

• Additional information: For the wording of the listed hazard phrases refer to section 16.

4 First-aid measures

- · Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Immediately rinse with plenty of water.
- If skin irritation continues, consult a doctor.
- After eye contact: Rinse opened eye for several minutes (at least 15 min) under running water. Then consult a doctor.
- After swallowing:

Rinse out mouth and then drink 1-2 glasses of water.

- If symptoms persist consult doctor.
- Most important symptoms and effects, both acute and delayed irritations
 Drying-out effect resulting in rough and chapped skin. after inhalation: mucosal irritations, cough, breathing difficulty

after swallowing:

sickness

diarrhoea

CNS disorders

· Danger: Danger of circulatory collapse.

• Indication of any immediate medical attention and special treatment needed: No further relevant information available.

5 Fire-fighting measures

- Extinguishing media
- · Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- · Special hazards arising from the substance or mixture
- Can burn in fire.

Formation of toxic gases is possible during heating or in case of fire. In case of fire, the following can be released:

- Sulfur oxides (SOx)
- Advice for firefighters
- Protective equipment:
- Wear self-contained respiratory protective device.
- Wear fully protective suit.
- Additional information

Collect contaminated fire fighting water separately. It must not enter the sewage system.

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

Safety Data Sheet acc. to OSHA HCS (HazCom 2012)

Printing date 08/07/2024

Reviewed on 08/07/2024

Trade name: Polyacrylate Indicator A4

Ambient fire may liberate hazardous vapours.

6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures
- Advice for non-emergency personnel:
- Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
- · Advice for emergency responders: Protective equipment: see section 8
- · Environmental precautions: Do not allow product to reach sewage system or any water course.
- Methods and material for containment and cleaning up:
- Ensure adequate ventilation.
- Use neutralizing agent.

Absorb with liquid-binding material (sand, diatomite, universal binders). Dispose contaminated material as waste according to section 13.

• **Reference to other sections** See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- Precautions for safe handling
- · Advice on safe handling:
- Ensure good ventilation/exhaustion at the workplace.
- Keep ignition sources away Do not smoke.
- Hygiene measures:
- Avoid contact with the skin.
- Avoid contact with the eyes.

Take off immediately all contaminated clothing. Wash hands before breaks and at the end of work. Do not eat, drink or smoke when using this product.

· Conditions for safe storage, including any incompatibilities

- Requirements to be met by storerooms and receptacles:
- Store in a cool location.
- Keep only in original container.
- Information about storage in one common storage facility: Store away from metals.
- Do not store together with alkalis (caustic solutions).
- Further information about storage conditions:
- Protect from heat and direct sunlight.
- Protect from exposure to the light. Protect from humidity and water.
- Recommended storage temperature: 20°C +/- 5°C (approx. 68°F)
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Control parameters

· Components	with limit values that require monitoring at the workplace:

Information on basic physical and chemical	properties	
Appearance:		
Form / Physical state:	Solution	
Color:	Yellow-brown	
Odor:	Like alcohol	
Odor threshold:	Not determined.	
pH-value:	Strongly acidic	
Melting point/freezing point:	Not determined.	
Initial boiling point and boiling range:	Not determined.	
Flash point:	> 60°C (> 140°F) (Lit: 5%, CAS: 64-17-5 ethanol)	
Flammability (solid, gas):	Combustible liquid.	
Auto igniting:	Not determined.	
Decomposition temperature:	Not determined.	
Auto-ignition temperature:	Product is not self-igniting.	
Danger of explosion:	Product does not present an explosion hazard.	
Flammability or explosive limits:	· · ·	
Lower:	Not applicable.	
Upper:	Not applicable.	
Oxidizing properties:	none	
Vapor Pressure:	Not determined.	
Density at 20°C (68°F):	1.1 g/cm³ (9.18 lbs/gal)	
Relative density:	Not determined.	
Vapor density:	Not determined.	
Evaporation rate:	Not determined.

· Solubility(ies)	
Water:	Fully miscible.
Partition coefficient (n-octanol/water):	Not applicable (mixture).
Viscosity:	
· Kinematic:	Not determined.
Other information	
· Solids content:	≤ 0.1 %
· Solvent content:	
· Organic solvents:	< 2.5 %
· Water:	> 90 %
· Information with regard to physical hazard c	lasses .
· Corrosive to metals	May be corrosive to metals. Information on incompatible materials can be found in Sections 7 and 10

10 Stability and reactivity

· Reactivity see section "Possibility of hazardous reactions"

· Chemical stability Stable at ambient temperature (room temperature).

Possibility of hazardous reactions

Corrosive action on metals.

Reacts with metals forming hydrogen (Danger of explosion in case of large amounts!)

Heating occurs when water is added.

Reacts with reducing agents.

Reacts with acids and alkali (lyes).

Reacts with ammonia (NH₃).

· Conditions to avoid Strong heating (decomposition)

· Incompatible materials:

metals.

combustible materials

organic solvents

Hazardous decomposition products: see section 5

11 Toxicological information

· Information on toxicological effects

· Acute toxicity: Based on available data, the classification criteria are not met.

alues	that are relevant for classification:
1-93-9 s	sulphuric acid
LD50	2140 mg/kg (rat) (IUCLID)
LC 50	510 mg/m³/2h (rat) IUCLID
7-5 eth	anol
LD50	10470 mg/kg (rat) OECD 401
LD50	>20000 mg/kg (rabbit)
	1-93-9 s LD50 LC 50 7-5 eth LD50

· Primary irritant effect:

· on the skin: Causes skin irritation.

· on the eye: Causes serious eye irritation.

Information on components:

Skin irritation testing performed on 10% sulfuric acid showed slight to no irritation effects (GESTIS).

CAS 7664-93-9: chronic: dermatitis

CAS: 64-17-5 ethanol	
Irritation of skin OECD 404	(rabbit: no irritation)

· Other adverse effects Avoid transfer into the environment.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Hand over to hazardous waste disposers.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.

15 Regulatory information

· Safety, health and environmental regulations/legislation specific for the substance or mixture

· Section 355 (Extremely hazardous substances):
CAS: 7664-93-9 sulphuric acid
· Section 313 (Specific toxic chemical listings):
CAS: 7664-93-9 sulphuric acid
TSCA (Toxic Substances Control Act):
All components have the value ACTIVE.
· Hazardous Air Pollutants
CAS: 67-56-1 methanol
Proposition 65
· Chemicals known to cause cancer:
None of the ingredients is listed.
Chemicals known to cause reproductive toxicity for females:
None of the ingredients is listed.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases

H225 Highly flammable liquid and vapor.

H290 May be corrosive to metals.

H314 Causes severe skin burns and eye damage.

H319 Causes serious eye irritation.
