

Water Testing

Disinfection Kits

In Commercial buildings

the building owners', management team, "Statutory Duty Holder" and the water treatment company may all have a legal obligation to provide safe water to the building's occupants and visitors. Technical guidance from industry organisations on how to maintain "safe" hot & coldwater services have stated that you should consider the following:

- Increased system flushing particularly in a dormant building
- Cold water heating up and/or hot water cooling down during low use periods
- Formation of biofilms that can promote system blockages and corrosion under deposit
- Growth of Legionella bacteria in biofilms
- If disinfection remedial works are undertaken, how to monitor correct strength of disinfectants and the associated efficacy of the "pull through" to all system outlets

Lovibond® Disinfection Kits can support you with

on-site microbiological testing before and after remedial disinfection works:

- Chlorine and Peroxide based Test Kits to monitor concentration of active disinfectant
- Disinfectant tests to ensure that you have the correct concentration for your system – effective kill without corrosion
- A range of test strips to economically monitor the pull through of disinfectant solutions to all parts of the system

| Test Kit | Parameter | Test Instrument | Code |
|---|---|---------------------|-----------|
| Disinfection Chlorine Test Kit  | pH Chlorine | Strips Drop Test | 56K701130 |
| Disinfection Chlorine Dioxide Test Kit  | pH Chlorine Dioxide | Strips Drop Test | 56K701140 |
| Disinfection Hydrogen Peroxide Test Kit  | pH Hydrogen Peroxide | Strips Drop Test | 56K701150 |
| Disinfection Combined Kit  | pH Chlorine Chlorine Dioxide Hydrogen Peroxide | Strips Drop Test | 56K701160 |

Also Available

Dipslides for testing in Cooling Water

Photometer Chlorine 2in1 LR and HR

Chlorine CHECKIT® Comparator Kit

Other available kits for:

- Boiler Water
- Cooling & Closed Water
- Engineers
- General Drop Test
- Industrial Water Monitoring
- Non Oxidising Biocides
