

# Non Oxidising Water Testing Biocide Kits

## DBNPA / Glutaraldehyde / Isothiazolinone / THPS Test Kits

- Ideal for mobile treatment engineers
- Compact & portable kit
- Easy to follow waterproof instructions
- Clear product labelling

Non oxidising biocides are often used as a "shock" treatment in cooling waters. These test kits can be used to determine the level of biocides in Open & Closed water systems and can be used when dosing biocides to systems recently pre-commissioned cleaned.

Measuring non oxidising biocides is crucial in ensuring that the biocide in use is not over or under dosed and these kits are ideal for this application.

Each of our non-oxidising biocide test kits is supplied ready to use.  
 Each kit contains all the necessary reagents to carry out between 50 and 100 tests  
 and uses either a colour card, comparator or drop count to determine the reserve.

Test Kit	Range	Quantity	Test Instrument	Code
DBNPA Test Kit	0-6.8 mg/L	100 Tests	CHECKIT® Comparator	56K701190
Glutaraldehyde Test Kit	12.5-1600 mg/L	100 Tests	Drop Test	56K700240
Isothiazolinone Test Kit	0-7.5 mg/L	100 Tests	Colour Card	56K701200
THPS Test Kit	0-20 mg/L	100 Tests	Drop Test	56K701210

## Also Available

Dipslides RB

DI10 Incubator

### Other available Kits for:

- Boiler Water
- Cooling & Closed Water
- Disinfection
- Engineers
- General Drop Test
- Industrial Water Monitoring
